### WILL THIS THING SELL OR SIT IN THE BIN?

It will sell, and here's why:

- Former **Hydra Head Records** band before that label kind of died and stopped putting out new records
- **Past tours** with Isis (including Europe), Russian Circles, Young Widows, Coliseum, Genghis Tron, Pelican, Daughters and others
- **Featured coverage of this release** from Decibel Magazine, Noisey, Stereogum, Brooklyn Vegan, MetalSucks, Invisible Oranges. As in "they are writing long articles about us", not "we took out an ad with them"
- **LP** is limited to 500 copies, comes with CD, Pantone reverse stock printing and is a fully analog recording
- Last release - 2010's "Backsliders and Apostates Will Burn" - CDs are **fully sold out**, LPs 92% gone.
