WILL THIS THING SELL OR SIT IN THE BIN?

It will sell, and here's why:

- Former **Hydra Head Records** band before that label kind of died and stopped putting out new records
- **Current June 2019 European tour** with Sumac
- **Featured coverage of this release** from Decibel Magazine, Stereogum, Brooklyn Vegan, MetalSucks. As in "they are writing long articles about us", not "we took out an ad with them"
- **LP** is limited to 600 copies, die-cut/foil-printed jacket and it's fully analog recording
- Last release - 2014s "Beyond Calculation" - LPs are **fully sold out**, (Rolling Stone: Top 25 Metal Albums of 2014).

CREDITS - Recorded by the Austerity Program at Kerguelen Studio (Astoria, NYC) in December 2018.
Mastered by John Golden in Ventura, CA.
